

The California Employers' Retiree Benefit Trust Fund at CalPERS

More than 460 California public employers participate in the CERBT program, through which they have invested more than \$4.5 billion of employer assets to pre-fund about \$36 billion of employer OPEB liabilities, such as retiree health benefits. The CERBT is the largest public multiple-employer OPEB trust fund in California. More California public employers choose the CERBT because we deliver excellent investment management, uncomplicated trust administration, financial reporting compliant with Governmental Accounting Standards, and personal direct service, at the lowest cost to participating employers.

Time weighted return reports the performance of the investment vehicle, not of the employer assets. Returns are gross. Historical performance is not necessarily indicative of actual future investment performance or of future total program cost. Current and future performance may be lower or higher than the historical performance data reported here. Investment return and principal value may fluctuate so that your investment, when redeemed, may be worth more or less than the original cost. The value of an employer's CERBT fund shares will go up and down based on the performance of the underlying funds in which the assets are invested. The value of the underlying funds' assets will, in turn, fluctuate based on the performance and other factors generally affecting the securities market.
