

ROCK STEADY JUGGLING

PRESENTS

Go With the Flow

FOR GRADES 3-5 IN MARIN

A FUN-FILLED AND INTERACTIVE WATER EDUCATION ASSEMBLY PROGRAM

Hold onto your seats and enjoy the ride with a brand new assembly!

Educator, environmentalist and master juggler, Doug Nolan, will surprise and delight your students (and teachers!) with extraordinary feats of dazzling dexterity and innovative comedy.

Students understand and remember the message of where our water goes and how it's treated as Doug performs outrageous stunts and daring feats of balance. Doug informs the students about the problems associated with dumping fats, oils, and grease (FOG) down the drain while he hosts a game show with student and teacher contestants battling it out for high stakes prizes!

Doug has been an award-winning Bay Area performer for over 20 years performing in front of over 50,000 school-aged children annually.

Besides Rock Steady Juggling, Doug is also a founding member and featured performer with the nationally acclaimed rock band for families The Sippy Cups. He earned a BA in environmental studies and an MFA in acting.

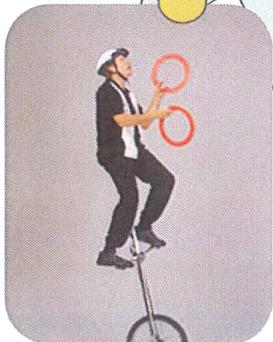

"I'm not sure who enjoyed this show more, me or the kids."

- Leslie Lipman at Canal Children's Center in San Rafael, CA

"The students really got the message about the importance of water and the need to protect this valuable resource."

- Donna Hellman, Assembly coordinator at Sun Valley School in San Rafael, CA
